

SAFETY

In order to be issued a swipe card to gain access to Chevron "after hours" (also needed to exit Chevron "after hours") and to borrow a key to your lab, you must agree to never work in the lab alone, and agree to follow all safety policies and to be aware of your own safety at all times (including your safety after exiting the building). Your signature below indicates your awareness of and your acceptance of all safety policies, as well as your agreement to abide by them. After signing, and getting your advisor's signature, you can obtain your keys from Toni Weber, the Personnel official, in CSC-234. In order for your final paycheck to be mailed to you, you must return your keys and have this form "cleared" by Toni before you leave campus.
